Section 6-4

Paragraph (20) No person shall sell, offer for sale, trade, barter, or give away any live animal, fish, bird, or reptile as a prize for, or as an inducement to enter a place of amusement; or offer such vertibrate as an incentive to enter any business establishment or enter into any business agreement whereby the offer was made for the purpose of attracting trade. *for business other than exhibiting, selling animals as their primary business.*

paragraph (21) No person shall sell, offer for sale, trade, or barter any animal whose appearance has been chemically altered by dyes ~~or~~ *staining*. ~~or otherwise affixing a change in the cosmetic appearance of an animal.~~

NOTE- Several area bird breeders deal heavily in red factor canaries which are fed a natural yet chemical color enhancing diet to bring out natural colors and change natural colors.

Section 6-12 Pet Shop Permit

Paragraph (2) Item d, Breed, description, ^{sex} approximate age and sex of dog, cat, or other animal sold. (Small mammals and fish not included.) must be furnished to the purchaser in a written statement at the time of sale.

Paragraph (2) Item g. A guarantee of good health for a period of not less than one (1) week with recommendation to have the animal examined by a licenced veterinarian.

NOTE- Almost all parrot type birds are almost impossible to sex without surgically sexing which is an expensive operation. Also breeding these birds in captivity is almost impossible.

Since guarantees of good health from breeders and wholesalers are good for only twenty-four hours for the most part, how fair is forcing us to give seven days. WE feel that if a veterinarian examines the animal in 24 or 48 hours after purchase and gives it a good bill of health, this should free the retailer of all liabilities.

Section 6-19 Fees

We sincerely hope that you can convince the council that this ordinance was originally written with the humane treatment of animals in mind, and not financially taxing the members of a small group of people and taxpayers. We agree with you 100% that if fees or ~~tax~~ taxes are to be levied they should cover the cost of inspection only., and it is my personal feeling that this has already been paid for with our tax dollars. Since our small shop carries no dogs or cats and the pets that we carry are in no way endangering the citizens of Fort Wayne with overpopulation we wish the council would reconsider several aspects of this ordinance before passing into law.

Thank you very much Councilman Schmidt for your openmindedness in this matter. I hope some of my comments to you on the phone and in this correspondence may help you alter the proposal so that it not only will stop the senseless mistreating of animals in our community, but will also be a fair piece of legislation for the whole community. In my opinion as it stands now, this ordinance will be for the most part, several pieces of paper that the very limited humane shelter staff will in no way be able to enforce.

Once again my wife and myself would like to thank you for taking the time to try to help us in what we personally feel is a very serious matter.

To the members of the Fort Wayne City Council;

Dear Council members,

I hope this letter will reach you in time to possibly have an influence on the vote you will be taking in regard to the proposed pet ordinance. This ordinance is something that hits home base more so with some than others as does every piece of legislation brought before the council. My wife and myself being the owners and operators of the smallest and one of the newest pet stores in town have borrowed money to own something that we hope someday may support us and our daughter. I have been layed off from seven jobs in the last two and a half years. This seemed like the only thing left to do that might give us some security, and now there is an ordinance proposed that might even do away with that. This bothers me personally and I would like to bring several items in the ordinance in particular that I feel should be omitted or ammended before a vote is taken.

Section 6-3 paragraph (8)

The council must also budget money to see that the shelter is staffed adequately to enforce these laws or there is no sense changing what is already on the books. The budget for the shelter and the staff has been cut, yet this ordinance will require more educated personnel than is now available to do the job.

Section 6-4 paragraph (20)

This paragraph would make illegal the selling of canaries and fish that are fed color enhancing food that is in itself a natural substance and with several bird fanciers a large part of their hobby as breeders.

Section 6-3 paragraph (20)

Would make the operation of any existing pet store or future stores illegal as our primary business is the sale of animals even though we sell no dogs or cats which this ordinance seems to be aimed at.

Section 6-12 paragraph (2)

Since parrots and other psitticine species of birds cannot be sexed without surgical means and the age of most of these species cannot be approximated very closely after the first year, item d. would be almost impossible.

Item g. calls for a guarantee of one week, when government quarantine stations give us; the retailer only 24 hours in most cases. This in itself would not be financially feasible to any store owner, and I am afraid that if even with a recommendation that a veterinary examination be had, a lot of people would do without only leaving more of a chance of the pet store; not the pet owner relieving unjust fines.

Section 6-14 paragraph (1)

This would restrict the educating of the public by outlawing

animal exhibitions at schools, parks, and at public events. There are experts in several aspects of animal behavior and those who know much more than anyone on the humane shelter staff at this time about animals other than dogs and cats that would be unable to share their knowledge without being charged a fee of \$100.00. Contrary to popular belief there are animals in Fort Wayne other than dogs and cats, and the owners of most of these animals take very good care of them.

Section 6-19 paragraph (5)

For some reason everyone including the authors of this ordinance think that any store owner makes enough money that they can take care of those who don't or won't pay for their own fines or fees which ever the case may be. This is not necessarily so. We must buy our animals from breeders whose overhead is much less than ours yet our fee is twice as much. This doesn't seem quite fair.

Don't take this wrong but, When every grocery and drug store sells products that when used according to directions do nothing but further the spread of parasites and worms in dogs and cats, and by their very presence on the shelves of these stores encourages pet owners to not take their animals to a veterinarian for regular check ups, who deserves to pay a \$100.00 fine or fee, the grocer, druggist, or us the pet store owners who can't make money by selling sick animals; only healthy ones.

Section 6-20 paragraph (1)

This provision upsets me the most. When was the last time that a fine of any kind was levied against a person for an inhumane act against an animal? These laws are on the books now, yet when the shelter receives a call about violations usually the only penalty given is a slap on the wrist by the officer or if it does go farther than that the courts let the guilty party go home so he can let his dog run the streets again.

I may be wrong about this, but from my own experience with complaints I have filed I really doubt it.

In closing I would really like to tell you that much of this ordinance is needed and the monies to enforce it should be made available to take care of it. My personal feelings on this are that the responsible pet owners and responsible merchants are going to be penalized to combat a problem that has existed for a long time and will continue to exist as long as certain human beings feel that animals were put on this earth as a means to release our frustrations or to humor us for short periods of time. Being a pet owner is a full time job, and if the shelter would spend more time educating the public, and less time proposing ways which have no means then we might be heading in the right direction. The shelter staff has done a fantastic job with what has been made available to them and it is beyond me how they ever have achieved this on the budget allowed them to operate on. I don't profess to have all the answers to the problems, but putting good legitimate breeders, stores, and stables out of business can't be the simple solution.

Thank you all for taking the time to read this and I hope I have stimulated some thought on a subject that is very close to me. I hope what ever your decision may be it proves to be the right one.

Sincerely yours,

Greg Gemmill

WHERE DID ALL THOSE 8000 ANIMALS COME FROM !!!

How many dogs have license tags ?

CRUELTY - - - BY THE HUMANE SHELTER

A Basenji was seen on a street - moaning in pain. A lady picked the dog up - called the Human Shelter : She was told she could bring it out but they could NOT be responsible for broken bones & internal injuries - They would keep the dog for 1 day & if the owner didn't claim it the dog would be put down. The lady said the dog was in pain & she would handle it. She took it to Dr. Allen who demanded to know who would pay the bills. The lady said she would. when the dog ready to be released from the vets hospital, the lady advertised the dog as lost. She took the dog home afterpaying Dr. Allen \$385.00. The dog ad appeared in the paper - the owner arrived and paid the vet bill and took his dog. He thanked the lady profusely for having saved his dog. It had been stolen or simply taken, found himself lost and was wandering around trying to find his way home.

A German Shepard guard dog was being teased by some children with firecrackers. The dog who was 11 years old scalded a 6 ft. chain link fence to get away. Was found and picked up by a Humane Shelter Officer who admitted that the dog could not walk on his own. This officer would not let either the owners or their veterinary get medication to the animal. It was Monday morning before anything could be done. The dog died less than a week later as a result of spinal trauma that had treatment been started when the animal was found this animal would still be alive today.

This person moved to her present address 2's yr. ago. She had 1 very old Saluki and 2 Cairn Terriers. The neighbors were impressed and asked how she managed to have such quite dogs. About 8 mo. later the neighbors children started teasing the dogs - pulling on the fence - throwing stones and pieces of wood at the dogs - yelling at them to bark - than a few weeks later (July 3 thru Oct. 31) these children like firecrackers and threw them at the dogs.

Chapter II The dogs now bark when ever these children or anyone else is moving around behind their yard.

WHAT RECOURSE DO OWNERS HAVE AGAINST SUCH ACTIONS DONE BY OTHERS?

The American Kennel requires breeders to maintain complete records on their dogs and dog actions for a minimum of 5 (five) years.

The parent clubs such as the Cairn Terrier Club of America - American Spaniel Club - American Beagle Club and The Scottish Deerhound Club of America as well as the Himalayan Cat Fanciers Club forbids breeders to sell puppies or kittens to pet shops to do cross breeding etc. These clubs all have a set code of ethics which must be adhered to.

This ordinance = specifically is aimed at the breeder. Lets find out who is really are the TRUE - HONEST - LAW ABIDING breeders and who are the ones that should be penalized

Drop the proposed ordinance. Use the one on the books. Demand that the Humane Shelter does what it is supposed to do. Instead of refusing to pick - up strays.

Why can't the Humane Shelter personnel work on a staggered shift bases so that they can be open longer and available to pick - up animals at all times!
This would allow the working people time to arrive there to see if their animal is there. And then the phones could be answered and information exchanged.
The last thing we the people of Fort Wayne need is a Humane Shelter that works against us instead of for us.!!!

Re: Amended Proposal: BILL NO. G-18-03-16

To the Honorable Members of the Common Council of the City of Fort Wayne:

Following the public hearing on the pending ordinance, Bill No. G-18-03-16, it was suggested that those speaking on the proposal summarize their positions to assist the Council in arriving at a prudent decision with respect to the Bill.

It is the position of the Northeastern Indiana Kennel Club that it not be passed.

The present Chapter 6 of the Code of Laws of the City of Fort Wayne, Indiana, together with the statutes of the State of Indiana, are more than adequate to provide control of animals and fowl in Fort Wayne, Indiana, if the laws are enforced. The representative of the Fort Wayne Humane Shelter presented figures showing that the shelter handled 10,952 animals in 1980 and expended a budget of \$270,069.00. The budget for 1981 has increased to \$331,982.00. The representative indicated that the program of euthanasia conducted by the shelter has not been successful. It appeared to be the consensus of the proponents of this Bill that what is needed in the City of Fort Wayne is an effective spay-neuter service. That is, a service that would encourage the reduction in the number of animals produced by the spaying and neutering of adult creatures. Quite simply, under the present Chapter 6 of the Code, spay-neuter services could be provided by the shelter, or under contract with the shelter to affect this purpose, and the funds would be provided from the funds saved that are now spent in picking up animals and in going through the costly process of storage, maintenance and ultimately

euthanasia. This result could be affected without any further economic burden on the taxpayers or the pet owners of the City. In addition, if the spay-neuter program succeeds, the responsibilities of the Shelter could be materially reduced with an anticipated reduction in budget in future years, rather than the marked increases that have taken place over the last ten (10) years, during which the population of the city has decreased.

The amended proposed Bill No. G-18-03-16 has a number of fatal flaws. These include the following:

Page 11, Section 6-18, INSPECTION "(1) Routine inspections of the premises of a permit holder to determine compliance with this ordinance may be made by the Animal Control Officer, Board of Health Officer or their authorized agents with a twenty-four (24) hour notice. (2) Inspections in response to a complaint may be made without notice."

This section permits an Animal Control Officer, a Board of Health Officer or their authorized agents to go on, in and through the properties of any citizen of the city who has an animal, at any time, day or night, upon a 24-hour notice. If any individual makes a complaint, however spurious, this permits these same officers to enter and come on any animal owner's property any time they choose; it destroys the privacy of Fort Wayne citizens and their right to be protected from search without the most careful judicial safeguards. However well-intentioned the officers named might be, they should not and indeed cannot, in my opinion, under the law have the right to enter property without very careful preliminary determination that there is a probable violation of the law.

Page 12, Article VII, Section 6-20 PENALTIES/VIOLATIONS, provides for a fine of not less than \$25.00 nor more than \$1000.00 for a violation of any provision of the proposed ordinance, however insignificant.

On page 13, Section 6-20 (3) makes each 24 hour period that a violation occurs a separate offense. This is the proposal at the present time. The amount of this proposed penalty certainly is subject to being increased at any time. This is an indication of what severe and confiscatory charges can be levied against animal

owners. I am considerably more concerned, however, about subparagraph (2) of Section 6-20, page 12 of the proposed ordinance. This gives the executive director of the Animal Shelter the right to order people to take part in an educational program or to work out at the Animal Control Shelter. There is no limit on the length of time that the person can be ordered to work, what kind of labor may be performed. This is involuntary servitude in my opinion. Certainly no-one's time should be controlled by the executive director of the Animal Shelter or any other agency of government. This is just fundamentally opposed to our constitutional concept of the freedom of the individual. If one has committed a crime against the State and has been tried by a jury of his peers, convicted and sentenced, then the law has been served. To place one's liberty in jeopardy should not be determined by the executive director of the Humane Shelter.

On page 14, Section 6-24, the proposed ordinance provides:

"Section 6-24 MONIES

- (1) Monies - All monies generated or collected as a result of any section of this ordinance shall be set aside in a special fund, separate from the budget set by the City Council each year, to be used for the following:
 - a. Humane Education; A portion of the monies collected shall be set aside by the Animal Control Commission to be used for Humane Education purpose including, but not limited to:
 1. Staff and volunteer training
 2. Audio-visual materials and/or equipment
 3. Books, pamphlets and printed materials needed to implement education programs.
 - b. Animal Care Equipment and Materials including but not limited to:

1. Vehicles and Vehicle replacement, repair
2. Communication and safety equipment
3. Cages, control bars, traps and any equipment or materials necessary to the professional and humane care of animals and operation of the Shelter."

On page 5 of the proposed ordinance, Section 6-3(9), the Animal Control Commission is given the power to prepare and submit to the City Council through the City Controller an annual budget for its financing of its operations and performance of its duties.

The ordinance proposes that the taxpayers of the City of Fort Wayne provide tax money to operate the shelter and that all monies collected as the result of the licensing fees proposed in this Bill should be set aside in a special fund additional to the budget to be used for purposes that the Humane Commission determines. I submit that it is the responsibility of you, Members of the Common Council, to control the expenditure of monies collected from the citizens of this city.

Section 18-1-3-6, Burns Annotated Statutes, provides in part as follows: "No appropriation shall be made for the payment of money otherwise than by ordinance, specifying by items the amount thereof and the department for which the appropriation is made." There is a very good reason why the State of Indiana, in its wisdom, placed the control of monies in the Common Council. You are elected officials who must answer to the people who elected you. You represent a broad spectrum of the community, you have had wide life experience, but more importantly, you face the electors and are re-elected on the basis of whether you do your job well or whether you don't. To give a blank check to a non-elected body of people would be unconstitutional and certainly would be unwise. The Humane Commission is no different than any other body in the City of Fort Wayne. They must justify their proposed expenditures before the common council, they must show where and how they intend to spend their money, what the public purpose is and whether it is a service that indeed is needed by the citizens. To follow any other course

5/8/81

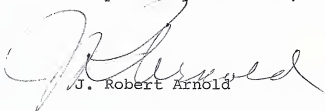

-5-

(Bill No. G-18-03-16)

would violate the Constitution of the State of Indiana and would violate the rights of the citizens of Fort Wayne.

In summary, the proposed Bill appears to be an effort to trim a hangnail with a broadaxe. The sense of the public hearing was that there are too many animals and that the way to reduce the number of animals is by spaying and neutering of mature animals to prevent breeding. The simplest, the most logical, and the most obvious way to achieve this is to use a part of the funds already provided to the Humane Shelter in the budget of the City of Fort Wayne to provide free spay-neuter services to animal owners. By following this simple course, two things can be accomplished; (1) the animal population in the city can be materially reduced, and (2) that it would be hoped that there would be a steady decline in the demands placed on the Animal Shelter and savings can in the future be effected in that manner.

Respectfully submitted,

J. Robert Arnold

Dear Council members,

This is to inform you that the neighborhood representatives to the June 16 meeting of the Neighborhood Association Council feel that the new animal control ordinance introduced in the City Council has been drastically weakened and watered down by the amendments to or deletions of important provisions.

Every clause in the proposed ordinance was put there for a reason---to correct or reduce an animal related problem in the neighborhoods. The repeal of these very important portions of the ordinance will significantly ~~weaken the original good bill and make it much less effective.~~

If we let this happen, the community at large will be the loser, for it will be denied the most effective animal control program possible.

Thank you for your thoughtful consideration of our concerns.

Sincerely,

Dennis R. Winters, Secretary

Dear Mr. Lazoff:

The neighborhood representatives in attendance at the June 16 meeting of the Neighborhood Association Council have asked that I write this letter requesting your resignation from the City Plan Commission. We ask this in light of your recently announced position with the N. B. Knapke Company, one of the area's largest real estate and development firms.

N.A.C. members expressed a real apprehension over the potential for a conflict-of-interest in matters before the Plan Commission in the future. It is not a question of your personal integrity or that of your new employer. It is simply a sincere desire to avoid even the appearance of any impropriety down the road.

N.A.C. also feels strongly that more representation from neighborhoods is warranted on the Commission. In the past we have been frustrated by the lack of concern for neighborhood integrity in some Commission decisions.

We do hope you find every success in your new position.

Sincerely,

Dennis R. Winters, Secretary

Dear Mr. Westerman,

I am writing this letter to urge your consideration of bill #G-18-03-16 (an ordinance dealing with animal control care and disposition and creating an animal control commission) which is to be heard in front of the City Council on Tuesday, May 19th.

Matters of this nature have been before the General Assembly several times and though we have not been able to satisfactorily draft statewide legislation in this area, I feel that this bill if adopted by your council, could be a good example for the rest of the state.

I support this proposal and urge that in your voting on Tuesday evening that you adopt this bill and make it law which I feel could be used as a guideline for statewide application.

Thank you very much for your consideration of this matter. I would be pleased to talk with you personally at a time convenient to you.

Sincerely,
